

Insurance Information

At Lovettsville Dental Arts, you will receive the best dental treatment using only the finest materials. We will do everything possible to maximize your insurance benefits, by submitting and tracking your claims for you as a convenience for you. It is important to us that you know that Dr. Johnston will NOT compromise your quality of dental care or your individual treatment plan.

Our office is quite familiar with most of the insurance companies and their continuously changing policies regarding benefits. Some insurance companies are very good about paying benefits for the patient. Most dental insurance companies, however, will only pay for the cheapest alternative treatment, because that is how they make money.

Your contract with your insurance company is between you and that company. We will estimate what the insurance company will pay, but please remember it is ONLY an estimate. The insurance company will not tell us what they will pay. As a courtesy, we will submit the insurance paperwork for you. Please be prepared to pay your estimated portion on the day of your visit. After the insurance company pays us, we will bill you for the balance, which is your responsibility.

We do not "participate" in any of the "reduced fee" dental benefit plans because we will not compromise the quality of your dental care.

The one exception is that we do accept the insurance benefit plan for our military personnel, and we appreciate all that they do for our freedom!
